Volunteer Voices

During our time at The City Gate we have had the opportunity to witness and experience the welcoming environment they provide. It has been inspiring to hear the stories of many of the staff members and the resiliency they have shown. Through their experiences, they are able to provide understanding towards the barriers and needs of the community they support. The practice of altruism is truly seen in this facility as staff provides resources for the needs of the population it serves. Thanks to the donations of many in the community, The City Gate is able to provide food, clothing, and other basic necessities. It's good to see that the staff takes care of one another and of their clients by providing a safe environment within their sites by intervening when necessary. When we joined The City Gate as student nurses to provide basic medical care, we felt like we became part of the team as The City Gate staff looked out for us and encouraged clients to seek medical care with us. Natalie, the volunteer nurse, was a great resource for clients in providing them with resources of basic medical care as needed. It is evident the commitment The City Gate has to their community by taking the time to develop relationships and provide trust, hope, and compassion.

Without the support of volunteers who give their time and energy to this ministry, The City Gate would not be the haven it is to so many people. Whether you come once a week or once a year, you have contributed to keeping this place up and running. Your donations, regardless of time, money, food, prayers or clothing, have done so much to help the people who walk through our doors everyday. As pastors and as Christians, we want to thank you for heeding the voice of the Lord and ask you to keep us in your prayers as we continue this journey.

Love, Pastor John & Shirley
